

FULL BODY PPF

BODY

At [Shop Name Placeholder], get our full body PPF with [Offer Placeholder]. It adds a clear protective barrier over the covered exterior panels to help defend your paint against stone chips, light scratches, and everyday scuffs. Keep the finish you love looking its best and enjoy driving with less worry about new marks. Click the link now.

HOOKS

1. Road chips up front and fresh scuffs along the sides? Your car's paint needs protection beyond the bumper.
2. Every wash reveals another mark on a different panel. Give your car's paint a broader layer of protection.
3. You've protected the front, but the rest of your paint faces everyday wear. Protect more of your car.
4. If you're always checking your paint after a drive, add protection that helps you enjoy your car more.
5. You bought your dream car to drive it. Don't let worrying about every little scratch spoil the experience.
6. That tiny scratch might be all you see now. Help protect the finish you're proud to show off.
7. Your new car's paint looks perfect today. Make protecting that finish part of your plan from the start.
8. Picked up the car you've been saving for? Give its paint protection before everyday wear starts adding up.
9. Tired of fixing paint marks one panel at a time? Give your car a broader layer of protection.
10. Another scuff, another repair to think about. Help shield your paint from everyday wear before more marks appear.
